Subject: Initial Notification Call - Cache and WSV 2017

Sara / Mary,

Thanks for the call today to discuss preparing Exceptional Event 2017 PM_{2.5} Wildfire demonstrations for the Cache Valley and West Silver Valley nonattainment areas in Idaho. These events have regulatory significance as per the 2016 EER and our call today will serve as meeting the Initial Notification requirements (we typically refer to the annual meeting generally).

As always, we are happy to review drafts and answer questions as you develop these demonstrations.

Justin / Matt / Bob
